Dany Bou Monsef

Computer Engineering Student

dany.boumonsef02@gmail.com   +961-79323867   github.com/danyboumonsef

Overview

Computer Engineering student seeking a web or software engineering internship. Strong foundation in data structures, algorithms, and full-stack web development.

Education

USEK Kaslik   **2023 - Present**

3rd Year Computer Engineering Student
Relevant Courses: Data Structures, Algorithmics, Electronics & Digital Electronics, Logic Design, Web Development

College Notre Dame de Louaizé, Zouk Mosbeh   **2022**

Lebanese Baccalaureate in General Science

Projects & Competitions

Lost & Found Hub (Full-Stack Web Application)

Designed and developed a full-stack lost and found platform using HTML, CSS, JavaScript, PHP, and MySQL. Implemented user authentication, item posting, admin controls, and dynamic interaction between front-end and back-end.
View Project

Web Articles Project

Developed a multi-page website presenting educational articles on web technologies using semantic HTML, CSS, and JavaScript for structure and interactivity.
View Website

IEEE Xtreme Programming Competition

Participated in a 24-hour international competitive programming contest, solving algorithmic challenges under time constraints.

Skills

Technical Skills	Tools	Languages	Soft Skills
Java	VS Code	English – Fluent	Leadership
C++	GitHub	French – Fluent	Detail Oriented
SQL/PLSQL	Eclipse	Arabic – Native	Creativity
HTML	Oracle		Adaptability
CSS	MATLAB		Teamwork
JavaScript			
PHP			
MATLAB			

Extracurricular Activities

Team Leader – DIFFA Hostessing Company

Directed several teams during events, ensuring smooth operations and a positive guest experience.

Professional Pianist & Orchestra Member

Performed as a pianist in orchestras and live concerts across various musical settings.

Former Scout

Participated in scouting activities and community events.
